

Dear Ovide,

Thank you for your support and assistance in trying to get New Hampshire back on the right track. I appreciate our recent conversations discussing my ad response to the Democrats' multi-million dollar media campaign accusing me of being against Medicaid funding of cancer screenings for women and pre-natal care. Their ads are blatantly dishonest.

As you know, I have always opposed taxpayer funding of abortions. It is important for conservative voters to know that I too support many of the common sense platform initiatives that they want to see passed including:

1. **Fetal Homicide Bill**
2. **Women's Health Protection Act**
3. **Healthcare Freedom of Conscience Act**
4. **Late Term Abortion Ban**
5. **NH Buffer Zone Repeal**

I know that my winning the race for Governor will be our best chance to get this important work done.

It is important to remind people that there are only two real choices in this race. By voting for me the voters can undo the liberal left-wing agenda that Democrats have imposed on New Hampshire over the past twenty years.

Thank you again for your advice, your guidance and your support.
