no, seriously, another thought:

This MEA leadership group is seriously exposed right now. You have checkmate, they fired their best and last bullet and your guns are LOADED. With a good plan, you can pick them apart, strip them dry and bleed them out by year's end.

#eye of the tiger

one alarming example: at wednesday's meeting in the LMC, SH said the district called for last summer's investigation. go back to the survey that was sent to you. it was sent by michelle couture but with a intro note by maxine mosely. in the first paragraph, she writes, "Almost one year ago, the MEA requested that the MSD conduct an independent investigation..." WOW, BUSTED
