Hi, Jen.

Pursuant to RSA 91-A, I'm writing to obtain the following information:

- A listing of all personnel and positions associated with the office of Student Engagement, Outcomes & Success, along with their job descriptions.
- Any and all teacher training materials associated with race, sex, ethnicity, gender, gender identity, or other protected class, or otherwise referenced by Amadou Hamady Sy in his recent letter to the staff about "Cultural Fluency training," including the PowerPoint slides he referenced.
- The 8th grade English Language Arts curriculum.
- Any and all curricular materials associated with "Cultural Fluency" or related subject matter, including co-called Diversity, Equity, Inclusion and Justice.

Finally, any comment you may have on why it's apparently OK to train teachers with this material but not ok to use it with students in the classroom. Why train teachers in it if there's no intent to bring it into the classroom?

Thanks,

*Richard H. Girard*
